Subject: EPA Region 2 Laboratory Report: Dimock Residential Groundwater Site Project (MBAS) - FINAL

I have attached the Final Laboratory Report (in .pdf format) and the R2EDD.xls electronic files (in R2 EQUIS and SCRIBE formats) for the Dimock Residential Groundwater Site project accepted by the EPA Region 2 Laboratory. The final report includes MBAS analysis results for the samples collected between 1/23/12 and 2/15/12. The data have been validated by the Laboratory. The report is identified as Project #1201028.

Based on each sample receipt, this project was divided into 17 work orders. The PDF version of the report includes a Batch Number and the Batch QC results, i.e., LCS, LCS duplicate, and Matrix Spike, for each work order.

In addition, I have attached a PDF of the supporting data for this project. It includes the QC checklist, Batch Sheet, Analysis Sequence Sheet and Instrument Sheets for each analytical batch processed for this project.

Please let me know if you have any questions.
